2. FinLadder USP –

We have the most experienced faculty in terms of work ex as well as teaching experience in the industry.

- Focus on every student with each student having a dedicated mentor
- Rigorous training, we believe in clearing CFA in the first attempt only, so that is why we will be training for it more than any other coaching institute but our focus would be to understand whole Corporate Finance and not only the text, so that you don't only end up clearing CFA but you are also ready for the real practical world.
- We understand that every person has a different pace of learning thus, individual attention would be given to the student as this is a marathon and people tend to procrastinate in the middle leg, thus constant group webinars on the progress, small deadlines, and individual specific tests would be kept.

6. Fees –

We understand that Rs. 85,000 + is a huge sum for students to pay for level 1 that too in early registration, thus we have made this course in a way so that no student would need to give the exam again, we will be focusing on rigorous training, with every student having a dedicated mentor helping throughout the course.

There are two ways that you can enrol for the coaching –

- **Type 1 – Rs. 28,000** - If you enrol for the 100% refund policy- In that case if you do not clear the exam in your first attempt then you get 100% refund of 28,000.
- **Type 2 – Rs. 20,000** - Otherwise normal without refund policy 20,000 , both would be absolutely same, same services and all, also in the 20,000 attempt if you do not clear, which would be highly unlikely since you'll be studying with the same students you will not be getting the refund.
