# About the Course Program

## 1. Duration-

The course duration is *six weeks* but the access to the pre-recorded videos would be provided for *6 months*.

## 2. Fees-

The fee for the course is ₹4000 (cheapest across all modes available whether online/offline). We also provide a demat account which you can use alongside the course to master the art of trading and investing. Internship opportunities might be shared during the tenure.

## 3. Sessions-

The course would be conducted through *50+ pre-recorded videos* for this module “A beginners guide to Stock Market”.

## 4. Mode of Teaching-

The mode of teaching is *online via recorded videos*. Doubt clearing sessions are also conducted to help the student grasp the concept better. Each student will be added to a WhatsApp group where they can get their doubts cleared from the mentors.

## 5. Who should join this training program?

Investing is considered to be the 8<sup>th</sup> Wonder of the World leading to a person's financial stability and growth. *Everyone getting started with investing in stock markets must do it.* You will learn technical and fundamental analysis required to analyse and pick up the stocks in the market. This course will help you generate profits even when you're 40!

## 6. Crux of the training-

*Price Action + Technical Analysis = Perfect Trader*

With this mindset we have made sure that we cover every aspect in the fundamental analysis (important ratios , analysis of financial statements, reason for investing, etc) and in technical analysis (price action , support and resistance , trend lines , chart patterns ,volumes , indicators like , EMA , MACD , VWAP, etc) to make the course comprehensive enough to help you become a successful trader. *Be the one that guides, not the one taking the tips.*
