2. How are we Different

- We have the most experienced faculty in terms of work ex as well as teaching experience in the industry.
- Focus on every student with each student having a dedicated FRM mentor who cleared FRM in the past 2 years only.
- Rigorous training, we believe in clearing FRM in the first attempt only, so that is why we will be training for it more than any other coaching institute but our focus would be to understand whole Risk Management and not only FRM, so that you don't only end up clearing FRM but you are also ready for the real practical world.
- We understand that every person has a different pace of learning thus, Individual attention would be given to the student as this is a marathon and people tend to procrastinate in the middle leg, thus constant group webinars on the progress, small deadlines, individual specific tests would be kept.

7. Fees-

We understand that (950 dollars) 70,000 rs is a huge sum for students to pay for level 1 that too in early registration, thus we have made this course in a way so that no student would need to give the exam again, we will be focusing on rigorous training, with every student having a dedicated mentor helping throughout the course.

There are two ways that you can enrol for the coaching

Type 1 - If you enroll for the 100% refund policy then 25,000

Type 2 - Otherwise normal without refund policy 18,000 , both would be absolutely same, same services and all, also in the 18,000 attempt if you do not clear, which would be highly unlikely since you'll be studying with the same students, you'll get another attempt's coaching absolutely free

8. How do we trust our process so much?

We used this exact same strategy to give FRM while we were preparing and cleared both levels of FRM in first attempt, so basically clearing FRM boils down to the discipline if you are ready to put in the efforts and time we can guarantee you that there is no way that you will not clear it in first attempt, we are ready to take a leap of faith in our training, and that is why we have introduced the money back policy, we know if you put in efforts there is a very rare chance of not clearing FRM, so if you join the classes either way, you'd get equal same attention and the focus would again be on everyone making it through.
